

SOME IDEAS FOR HALLOWEEN

MAKE A HALLOWEEN MOBILE

Cut out classical Halloween characters and stick a piece of string to each of them with sellotape. Then tie the strings to a hanger at different intervals along it.

TRADITIONAL HALLOWEEN GAMES

Bob Apple

Materials needed : * A big bowl + * water + * apples

Procedure: Fill the bowl with water and put the apples in it. Players put their hands behind their backs and try to pick up an apple with their teeth.

Snap Apple

Materials needed : * Apples + * string

Procedure: Hang apples on pieces of string. Players try to catch an apple only with their teeth, they cannot use their hands

MORE IDEAS

Tissue Ghosts

This is an easy way to decorate for Halloween.

Materials needed :

- 2 tissues (white)
- Yarn or ribbon (white, black, or orange)
- Black permanent marker
- Fishing line
- Scissors
- Tacks

Procedure :

- Wad up one and place it in the center of the second.
- Pull the corners up around the ball and tie with the yarn. It should be shaped like a ghost.
- Draw a face. Be creative!
- Tie the fishing line to the yarn around its neck. Hang from ceiling fan blades, in front of a swamp cooler, rig it to a door on a pulley system (so it comes down when you open the door), or just hang it from a ceiling.

Pin the face on the Pumpkin

Using a large piece of orange poster board draw a pumpkin as big as the poster board. Draw triangle eyes and nose with a black magic marker. Using material as a template draw a pumpkin mouth with teeth. Use the template to trace on construction paper as many mouths as you think you will need.

Blindfold the person playing giving them a pumpkin mouth with tape on the back. Then spin him or her around but facing the pumpkin at the end. Have them try to stick the mouth onto the pumpkin where they think it should be. Have a big X marked where it should go.

The person with the mouth closest to the X is the winner.

JACK-O-LANTERN

This is a game for 2 to 4 players ages 6 and up.

Materials needed :

a piece of paper and a pencil for each player

1 die

The object of this game is to complete a drawing of a jack-o-lantern before the other players do.

Players roll the die to see who starts. The player with the highest number goes first.

You must roll the exact number to draw each item. Each item must be drawn in order.

If you can not draw what you have rolled, the turn passes to the next player.

(For a faster game, or for younger players, you can draw the items in any order).

Roll a 1.....draw a circle for the pumpkin

Roll a 2.....draw the stem

Roll a 3.....draw one eye

Roll a 4.....draw the other eye.

Roll a 5.....draw the nose

Roll a 6.....draw the mouth.

A variation on this game, for older players, is to carve the pumpkin instead of drawing it.

In that case, the player would roll a 1 to scoop out his pumpkin.

Make your own Halloween decorations

. Print out these craft pages, color them, cut them out and fasten them together to make your own Halloween decorations. Stick them in your classroom !!!
