

Making up words

Materials needed:

-Letters of the Alphabet Cards.

(You can find all the alphabet cards in English & Fun first CD Rom)

Divide the class into groups.

Each group will have to pick up 10 cards at random.

Students will have to make up as many words as possible using the letters in their cards.
(If possible students will try to make up sentences with those words).

Teachers should set a limit of time before beginning to play.

Once the assigned time has finished each group will show the others their work.

The group with the most words is the winner.
