

## Paul's typical day

Ask your children to write a paragraph describing what Paul does every day. Use the given pictures as a guide.

Encourage the children to write as many sentences as possible. Ask them to use connective words as: "first / after that / then / finally".

If your students are very young, ask them to sequence the pictures, describe the actions orally and colour them.

The following pictures can also be used to introduce your students' typical days.
